Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow and mitigation

Period of Use: May 1 through September 15

Quantity: Primary Reach - To be used for the purpose of **instream flow** in the Teanaway River: 0.85 cubic feet per second (cfs), 147.00 acre-feet per year (ac-ft/yr) from May 1 through September 15; and

To be used for the purpose of **mitigation** for out of priority uses in the Teanaway and Yakima Rivers: 0.335 cfs, 49.035 ac-ft/yr from May 1 through September 15; and 0.045 cfs, 0.075 ac-ft/yr from September 16 through April 30.

Secondary Reach - 110.25 ac-ft/yr for the purpose of **instream flow** in the secondary reach, to be distributed throughout the year as follows: 0.00 cfs, 0.00 acre-feet in May; 0.34 cfs, 20.42 ac-ft/yr in June; 0.64 cfs, 39.46 ac-ft/yr in July; 0.47 cfs, 29.19 ac-ft/yr in August; 0.36 cfs, 21.17 ac-ft/yr from September 1 through September 15; 0.00 cfs, 0.00 ac-ft/yr from September 16 through April 30

36.77 ac-ft/yr for the purpose of **mitigation** in the secondary reach, to be distributed throughout the year as follows: 0.001 cfs, 0.002 ac-ft/yr in May; 0.111 cfs, 6.812 ac-ft/yr in June; 0.211 cfs, 13.152 ac-ft/yr in July; 0.161 cfs, 9.732 ac-ft/yr in August; 0.121 cfs, 7.061 cfs from September 1 through September 15; 0.001 cfs, 0.015 ac-ft/yr from September 16 through April 30

Note: The annual consumptive quantity (ACQ) under the trust right may not exceed 147.02 acre-feet.

Priority Date: **June 30, 1883**

Point of Diversion: N/A

Place of Use: **Primary Reach** - Begins at a point 650 feet south and 1,140 feet west from the northeast quarter corner of Section 34, T. 20 N., R. 16 E.W.M., and ends at a point 2,200 feet south and 420 feet east of the northwest quarter corner, of Section 3, T. 19 N., R. 16 E.W.M.

Secondary Reach (for the instream flow portion)- Begins at a point 2,200 feet south and 420 feet east of the northwest

quarter corner, of Section 3, T. 19 N., R. 16 E.W.M. and continues down the Teanaway River to the confluence with the Yakima River, and continues down the Yakima River to the confluence with the Columbia River, and continues downstream to the confluence of the Columbia River and the Pacific Ocean.

Secondary Reach (for the mitigation portion) - Begins at a point 2,200 feet south and 420 feet east of the northwest quarter corner, of Section 3, T. 19 N., R. 16 E.W.M. and continues down the Teanaway River to the confluence with the Yakima River, down to USBR Gage at Parker, Yakima River mile 106.7, in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17, T. 12 N., R. 19 E.W.M.

Comments:

This water right reflects changes approved pursuant to Water Right Change Application No. CS4-01467@11sb3a(A).

CLAIMANT NAME: **Wilbur H. Mundy
& Mary Ann Mundy** COURT CLAIM NO. 01467
(A) 03296

Certificate Number: S4-83736-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Irrigation of 45 acres and stock watering

Period of Use: May 1 through September 15 for irrigation; continuously for stock watering

Quantity: 0.90 cubic foot per second; 292.5 acre-feet per year if the ditch at diversion #1 is used or 120 acre-feet per year if the pump at diversion #2 is used, for irrigation from May 1 through September 15; 1.0 cubic foot per second; 5 acre-feet (consumptive use) from September 16 through April 30 for stock watering

Priority Date: **June 30, 1883**

Point of Diversion: 1) 900 feet south and 350 feet east from the north quarter corner of Section 25, being within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T. 20 N., R. 16 E.W.M.

2) 650 feet south and 1140 feet west of the northeast corner of Section 34, being within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 34, T. 20 N., R. 16 E.W.M.

Place of Use: That portion of the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 28 and the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. lying southwesterly of the Masterson Ditch.

Limitations Of Use: When surplus water is available in excess of that needed to satisfy all existing rights, up to 1.80 cfs can be diverted. This water will normally only be available for a 30 day period in May and June. The surplus water (quantity in addition to 0.90 cfs) is not in addition to the surplus water that the Mastersons can divert under their right with the same priority date and claim number. The maximum that can be diverted into the Masterson Ditch for the Masterson/Mundy property is 7.60 cfs. Additionally, the quantity awarded to the Mastersons under the same priority date and claim number for stock watering from September 16 through April 30 is not in addition to the quantity herein authorized. The 1.0 cfs can be diverted continuously from September 16 through April 30; the 5 acre-feet is the consumptive use.

Comments: This water right reflects changes approved pursuant to Water Right Change Application No. CS4-01467CTCL@1.

CLAIMANT NAME: **New Suncadia, LLC**

COURT CLAIM NO. 02255
(A) 04493
(A) 04465

Certificate Number: S4-83717-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow for mitigation for potential net increase in consumptive water use by the New Suncadia, LLC from the Yakima River or cumulative impacts of the project

Period of Use: May 1 through September 15

Quantity: 81.19 acre-feet per year for instream flow, up to 77.11 acre-feet per year for mitigation of consumptive water use by the New Suncadia, LLC or other cumulative impacts of the project.

Secondary Reach - 81.19 acre-feet per year to be distributed as follows:

May - 0.27 cubic foot per second (cfs) and 16.45 acre-feet;
June - 0.29 cfs and 17.40 acre-feet; July - 0.35 cfs and 21.32 acre-feet; August - 0.32 cfs and 19.45 acre-feet;
September - 0.22 cfs and 6.57 acre-feet

Priority Date: **June 30, 1883**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying with Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 77.11 acre-feet per year of water for mitigation associated with this claim will only be available when water for this right is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with New Suncadia, LLC and other cumulative impacts of the project.

An ongoing water monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New

Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a Monitoring Plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the approved Monitoring Plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the New Suncadia, LLC development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the New Suncadia, LLC development will be less 0.68 acre-feet per year per ERU developed on appurtenant property (up to a total of 4.08 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be 77.11 acre-feet per year. Future landowners on property

appurtenant to the New Suncadia, LLC claim have two options for use of the 4.08 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Use: Instream flow for mitigation for potential net increase in consumptive water use by the New Suncadia, LLC Urban Growth Area Development or cumulative impacts of the project.

Period of Use: May 1 through September 15

Quantity: 40.60 acre-feet per year for instream flow, up to 38.56 acre-feet per year for mitigation of consumptive water use by the Urban Growth Area Development or other cumulative impacts by the project.

Secondary Reach - 40.60 acre-feet per year to be distributed as follows:

May - 0.13 cubic foot per second (cfs) and 8.23 acre-feet;
June - 0.15 cfs and 8.70 acre-feet; July - 0.17 cfs and 10.66 acre-feet; August - 0.16 cfs and 9.72 acre-feet;
September - 0.11 cfs and 3.29 acre-feet

Priority Date: **June 30, 1883**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 38.56 acre-feet per year of water for mitigation associated with this claim will only be available when water for this right is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the Cle Elum Urban Growth Area development and other cumulative impacts of the project.

An ongoing water monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective

of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a Monitoring Plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the approved Monitoring Plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the Urban Growth Area development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the Urban Growth Area development will be less 0.34 acre-feet per year per ERU developed on appurtenant property (up to a total of 2.04 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be 38.56 acre-feet per year. Future landowners on property

appurtenant to the New Suncadia, LLC claim have two options for use of the 2.04 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Comments:

This water right reflects changes approved pursuant to Water Right Change Authorization Nos. CS4-YRB03CC02255 and CS4-02255 (A) CTCL.

Use: Instream flows and mitigation for consumptive water use by New Suncadia, LLC Urban Growth Area Development from the Yakima River or cumulative impacts of the project

Period of Use: May 1 through September 15

Quantity: Secondary Reach - 2.57 acre-feet to be distributed as follows:

May - 0.01 cubic foot per second (cfs) and 0.52 acre-foot;
June - 0.01 cfs and 0.55 acre-foot;
July - 0.01 cfs and 0.67 acre-foot;
August - 0.01 cfs and 0.62 acre-foot;
September - 0.01 cfs and 0.21 acre-foot

Priority Date: **June 30, 1883**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 2.57 acre-feet per year of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the Urban Growth Area Development or other cumulative impacts of the project.

An ongoing monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a Monitoring Plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the Monitoring Plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the Urban Growth Area development does not include assumed future water use on property appurtenant to the claim referenced in this application. However, no future water use is anticipated on property appurtenant to this claim as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be the same as the table noted in the quantity section above.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

(A) 05114

Certificate Number: S4-83701-J

Subbasin: 03 Teanaway River

Source: Teanaway River, Mason Creek and Musser Creek

Use: Irrigation of 8 acres and stock water

Period of Use: May 1 through September 15

Quantity: 0.16 cubic foot per second; 52 acre-feet per year

Priority Date: **June 30, 1884**

Point of Diversion: Teanaway River: 150 feet north and 800 feet west from the southeast corner of Section 10, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M.

Mason Creek: North of the Teanaway Road within the Kittitas County Right of Way, being within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M.

Musser Creek: Approximately 630 feet south and 900 feet west of the center of Section 13, being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M. but to be relocated as necessary in the future within 200 feet in order to respond to creek channel changes over time caused by flooding or other erosion.

Place of Use: That portion of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M., described as follows: Commencing at the west quarter corner of said section; thence east 1050 feet, more or less, to the east right of way of the Teanaway Road and the point of beginning; thence east 500 feet; thence S 35° E 1500 feet; thence S 20° W 300 feet to the east right of way of said road; thence northwest along said right of way 2000 feet, more or less, to the point of beginning.

Limitations Of Use: When surplus water is available in the river in excess of that needed to satisfy all existing rights, an additional 0.16 cubic foot per second can be diverted. This water will normally only be available for a 30 day period in May and June.

The water authorized to be diverted at the new point of diversion may not be diverted at the new point of diversion if the water is not available for diversion from Mason Creek and/or Musser Creek at the old points of diversion on Mason and/or Musser Creek.

CLAIMANT NAME: **Greg Goodwin**

COURT CLAIM NO. 00777
(A) 05114

Certificate Number: S4-83704-J

Subbasin: 03 Teanaway River

Source: Teanaway River and Musser Creek

Use: Irrigation of 27.5 acres and stock water

Period of Use: May 1 through September 15

Quantity: 0.55 cubic foot per second; 178.75 acre-feet per year for irrigation, 2 acre-feet per year for stock water

Priority Date: **June 30, 1885**

Point of Diversion: 1000 feet south and 1600 feet east of the west quarter corner of Section 13, being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M.

390 feet north and 400 feet east from the southwest corner of Section 13, being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M.; but to be relocated as necessary in the future within a quarter mile reach of the Teanaway River's left/northerly bank within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, located within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M., in order to respond to river channel changes over time caused by flooding or other erosion.

Place of Use: That portion of the southeast quarter and that portion of the southwest quarter of Section 13, T. 20 N., R. 16 E.W.M., Kittitas County, State of Washington which is bounded by a line described as follows: Beginning at the intersection of the western right of way boundary of the Teanaway (County) Road with the southerly boundary of said southeast quarter of said Section 13, said point of intersection being the True Point of Beginning of said line: Thence northwesterly along said westerly right of way to the point of intersection with the centerline of Musser Creek as delineated on that certain survey record in Book 16 of Surveys at pages 61, 62, and 63, records of said County: Thence southwesterly along said delineated centerline of said Musser Creek to the eastern bank of the Teanaway River: Thence easterly and southeasterly along said eastern river bank to the point of intersection with the south boundary of the southwest quarter of said Section 13, said point of intersection being on the southerly boundary of Parcel 4 of said survey: Thence easterly, northeasterly, and southeasterly, along the southern boundary of Parcel 4 of said recorded survey to the intersection of the south boundary of said Parcel 4 of said recorded survey with the south boundary of said Section 13: Thence easterly along

said south boundary of said Section 13 to the True Point of Beginning and the terminus of said line. Also known as Parcels 3 and 4 of that certain survey recorded in Book 16 of Surveys, pages 61, 62, and 63 under Auditor's File Number 522958, records of Kittitas County, State of Washington.

EXCEPT that portion which lies within the Teanaway River.

Limitations Of Use:

When surplus water is available in the river in excess of that needed to satisfy all existing water rights, an additional 0.55 cubic foot per second can be diverted. This water will normally only be available for a 30 day period in May and June.

CLAIMANT NAME: **Lazy Bar L Ranch LLC**

COURT CLAIM NO. 00558
(A) 02338

Certificate Number: S4-83726-J

Subbasin: 03 Teanaway River

Source: An unnamed creek

Use: Irrigation of 5 acres

Period of Use: May 1 through September 30

Quantity: 0.10 cubic foot per second; 5 acre-feet per year

Priority Date: **June 30, 1885**

Point of Diversion: 1000 feet north and 400 feet west from the center of Section 20, being within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20, T. 20 N., R. 17 E.W.M.

Place of Use: SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, T. 20 N., R. 17 E.W.M.

Limitations Of Use: A maximum of 5 acres are authorized to be irrigated; however, due to the landowners' irrigation practices and cropping, a different part of the described tract may be irrigated. A total area of 29 acres has been irrigated, but under this right, no more than five acres may be irrigated in any given irrigation season.

CLAIMANT NAME: **Teanaway Ridge LLC**

COURT CLAIM NO. 01566

Certificate Number: S4-83776-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Irrigation of 76 acres

Period of Use: May 1 through September 15

Quantity: 1.5 cubic feet per second; 304 acre-feet per year

Priority Date: **June 30, 1885**

Point of Diversion: 1,025 feet south and 275 feet east from the northwest corner of Section 3, being within the NW¹/₄NW¹/₄ of Section 3, T. 19 N., R. 16 E.W.M.

Place of Use: That portion of the west 2200 feet of the NW¹/₄ of Section 3, T. 19 N., R. 16 E.W.M. lying easterly of the Teanaway River and north of State Highway 10.

Limitations Of Use: The applicant may only divert water under this authorization when water availability in the Teanaway River is sufficient for earlier priority date water rights to be satisfied.

Comments: This water right reflects changes approved pursuant to Water Right Change Authorization No. CS4-YRB3CC01566.

CLAIMANT NAME: **Teanaway Valley Farms, Inc.** COURT CLAIM NO. 00777
(A) 05114

Certificate Number: S4-83705-J

Subbasin: 03 Teanaway River

Source: Teanaway River, Mason Creek and Musser Creek (via a ring well and Teanaway River diversion)

Use: Irrigation of 37.75 acres and stock water

Period of Use: May 1 through September 15

Quantity: 0.755 cubic foot per second (338.84 gallons per minute);
245.375 acre-feet per year for irrigation, 2 acre-feet per year for stock water

Priority Date: **June 30, 1885**

Point of Diversion: Ring Well - about 315 feet east and 450 feet north of the southwest corner of Section 13, T. 20 N., R. 16 E.W.M., being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 13.

Teaaway River - about 255 feet east and 300 feet north of southwest corner of Section 13, T. 20 N., R. 16 E.W.M., being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 13.

Place of Use: That portion of the SW $\frac{1}{4}$ of Section 13, T. 20 N., R. 16 E.W.M. described as follows: Beginning at the west quarter corner of said section; thence east approximately 1000 feet, more or less, to the west right of way of the Teanaway Road; thence southeasterly, along said right of way, to Musser Creek; thence southwesterly along the said creek to the Teanaway River; thence northwesterly along the north bank of said river to the west line of said section; thence north along said line approximately 2300 feet, more or less, to the point of beginning; also known as Parcels 1 and 2 of that survey recorded in Book 16 of Surveys, Pages 61 and 62, records of Kittitas County.

Limitations Of Use: When surplus water is available in excess of that needed to satisfy all existing water rights, an additional 0.755 cubic foot per second can be diverted. This water will normally only be available for a 30 day period in May and June.

Comments: This water right reflects changes authorized pursuant to Water Right Change Application No. CS4-00777CTCLsb3@2.

being within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, T. 20 N., R. 16 E.W.M.

Place of Use: The east 1000 feet of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ north of the Teanaway River and that portion of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ south of the Teanaway Road, all located in Section 5, T. 20 N., R. 16 E.W.M.

being within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, T. 20 N., R. 16 E.W.M.

County: Kittitas Tax Parcel No. 937636

CLAIMANT NAME:	Tom Conner & Carol Conner	COURT CLAIM NO. 00746 (A) 06336
Certificate Number:	S4-83763-J	
Subbasin:	03 Teanaway River	
Source:	An unnamed pond, hydraulically connected to the Teanaway River, and an unnamed stream	
Use:	Irrigation of 50 acres and stock water	
Period of Use:	May 1 through September 15	
Quantity:	1.0 cubic foot per second; 200.5 acre-feet per year for irrigation, 2 acre-feet per year for stock water	
Priority Date:	June 30, 1888	
Point of Diversion:	Unnamed pond: 470 feet from the Teanaway River in the NW ¹ / ₄ NW ¹ / ₄ of Section 10, T. 20 N., R. 16 E.W.M., about 7600 feet downstream from the historical Ballard ditch diversion located in the NE ¹ / ₄ NE ¹ / ₄ of Section 8, T. 20 N., R. 16 E.W.M. Unnamed stream: 1100 feet south and 400 feet east of the northwest corner of Section 10, being within the NW ¹ / ₄ NW ¹ / ₄ of Section 10, T. 20 N., R. 16 E.W.M.	
Place of Use:	That portion of the NW ¹ / ₄ of Section 10, T. 20 N., R. 16 E.W.M. lying south of the Teanaway Road and north of the Teanaway River	
Limitations Of Use:	When sufficient water is available in excess of that needed to satisfy all existing water rights, an additional 1.0 cubic foot per second may be diverted from the river. This water will normally be available for approximately 30 days in May or June. When stream flows are unable to fully satisfy all Teanaway River water rights, this priority right shall be regulated in favor of senior water right holders based upon the present adjudicated rights.	
Comments:	This water right reflects changes approved pursuant to Water Right Change Authorization No. CS4-00746CTCL.	

CLAIMANT NAME: **D.J. (Dorothy J.) Crosetto** COURT CLAIM NO. 00383
(A) 05635

Certificate Number: S4-83995-J

Subbasin: 03 Teanaway River

Source: Pond or ring well hydraulically connected to the Teanaway River and unnamed stream (John's Creek)

Use: Irrigation of 46.5 acres and stock water

Period of Use: May 1 to September 15; year-round for stock water

Quantity: 0.93 cubic foot per second, 181 acre-feet per year for irrigation; 1 acre-foot per year for stock water

Priority Date: **June 30, 1888**

Point of Diversion: Pond or ring well: 1400 feet south and 1500 feet east from the center of Section 10, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M.

Unnamed Creek: 400 feet north and 850 feet east of the center of Section 10, being within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M.

Teanaway River pump: Approximately 1400 feet south and 1500 feet east from the center of Section 10, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M.

Place of Use: That portion of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M. lying southerly of the Teanaway Road and northwesterly of the following described line: Beginning at a point on the north line of said SW $\frac{1}{4}$ NE $\frac{1}{4}$ that is 275 feet west from the northeast corner of said SW $\frac{1}{4}$ NE $\frac{1}{4}$ and thence running southwesterly to a point on the south line of said SW $\frac{1}{4}$ NE $\frac{1}{4}$ that is 400 feet east of the southwest corner of said SW $\frac{1}{4}$ NE $\frac{1}{4}$, which is the terminus of said described line. AND that portion of the SE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M. lying northerly of the Teanaway River and southerly of the Teanaway Road, EXCEPT that portion of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10, T. 20 N., R. 16 E.W.M. lying northwesterly of the following described line: Beginning at the northeast corner of said NW $\frac{1}{4}$ SE $\frac{1}{4}$ and thence running southwesterly to the southwest corner of said NW $\frac{1}{4}$ SE $\frac{1}{4}$, which is the terminus of said described line.

Limitations Of Use: When there is surplus water in the Teanaway River after all existing rights are satisfied, up to an additional 0.93 cubic foot per second may be diverted. This water will normally only be available for a 30 day period in May and June.

The point of diversion/withdrawal from a pond or ring well must tap and utilize water within the unconsolidated

alluvial sediments.

When stream flows are unable to fully satisfy all Teanaway River water rights, this priority right shall be regulated in favor of senior water right holders based upon the present adjudicated rights.

Quantity: 0.08 cubic foot per second; 20.69 acre-feet per year

Priority Date: **June 30, 1889**

Point of Diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 4, T. 19 N., R. 16 E.W.M.

Place of Use: Beginning at the northwest corner of Lot 1, Monroe SP94-47 as recorded in Book D, page 168 of Short Plats, which is also the true point of beginning; thence S 89°17'08" E along the south edge of the right-of-way for Lambert Road which is also the north line of Lot 1, 222.13 feet; thence S 02°00'30" W, 466.72 feet to the north line of Lot 2; thence S 89°17'08" E, 281.42 feet along the north line of Lot 2; thence N 01°52'03" E, 466.69 feet along the east line of Lot 1 to the intersection with the south edge of the right-of-way for Lambert Road; thence S 89°17'08" E, 20.00 feet along said right-of-way; thence S 01°52'03" W, 693.74 feet along the east line of Lot 2; thence N 89°20'08" W, 100.00 feet along a southerly line of Lot 2; thence S 01°52'03" W, 240.00 feet along the east line of Lot 2; thence N 89°20'08" W, 424.72 feet along the south line of Lot 2; thence N 89°20'08" W, 524.72 feet along the south line of Lot 2; thence N 02°00'30" E, 943.25 feet along the west line of Lot 2 to the true point of beginning.

Limitations Of Use: Water may not be diverted at the new point of diversion except during times when water is available for diversion at the old point of diversions located at 1) 1200 feet south and 600 feet west of the east quarter corner of Section 26, being within the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, T. 20 N., R. 16 E.W.M. and 2) 900 feet south and 350 feet east from the north quarter corner of Section 25, being within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T. 20 N., R. 16 E.W.M.. During periods of low flow, when water would not normally be available for the subject right at the old point of diversion, water diversion at the new point of diversion must cease.

The water right holder may not call upon junior water right holders above the new point of diversion to cease using water during periods of low flow, unless that junior water

right holder is also located above the old point of diversion.

Period of Use:	May 1 through September 15	
Quantity:	2.324 cubic feet per second; 755.3 acre-feet per year	
Priority Date:	June 30, 1889	
Point of Diversion:	Teanaway River: NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T. 20 N., R. 16 E.W.M. Mack Creek: SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, T. 20 N., R. 17 E.W.M.	
Place of Use:	That part of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19 lying southwesterly of the 3M Ditch and the NW $\frac{1}{4}$ of Section 30, ALL within T. 20 N., R. 17 E.W.M.	
Limitations Of Use:	When surplus water is available in excess of that needed to satisfy all existing rights, an additional 2.324 cubic feet per second may be diverted. This water will normally only be available for a 30 day period in May and June.	
Comments:	This water right reflects changes approved pursuant to Water Right Change Application No. CS4-01042sb3.	

CLAIMANT NAME: **Dennis O'Leary
& Yvonne O'Leary**

COURT CLAIM NO. 01850
(A) 06063

Certificate Number: S4-85114-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Irrigation of 2.09 acres

Period of Use: May 1 through September 15

Quantity: 0.04 cubic foot per second, 11.27 acre-feet per year

Priority Date: **June 30, 1889**

Point of Diversion: 1) 1200 feet south and 600 feet west of the east quarter corner of Section 26, being within the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, T. 20 N., R. 16 E.W.M.
2) 900 feet south and 350 feet east from the north quarter corner of Section 25, being within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T. 20 N., R. 16 E.W.M.

Place of Use: That portion of the NE $\frac{1}{4}$ of Section 4, T. 19 N., R. 16 E.W.M., more particularly described as follows (containing 4.39 acres): Beginning at the northeast corner of said section, thence S 01°52'03" W, 30.01 feet to the true point of beginning; thence continuing S 01°52'03" W along the east line of said section, 466.69 feet; thence N 89°17'08" W, 410.00 feet; thence N 01°52'03" E, parallel with the east line of said section, 466.69 feet; thence S 89°17'08" E, along the southerly edge of the right-of-way for Lambert Road, 410.00 feet to the true point of beginning. Subject to all rights-of-way, reservations, restrictions and easements apparent or of record, EXCEPT right-of-way for Lambert County Road which runs along the north boundary line thereof.

CLAIMANT NAME: **Teanaway Valley Family Farm, L.L.P.** COURT CLAIM NO. 00383
(A) 05635

Certificate Number: S4-83724-J

Subbasin: 03 Teanaway River

Source: Teanaway River through a ring well and unnamed stream
(Fred's Creek)

Use: Irrigation of 26.5 acres and stock water

Period of Use: May 1 through September 15 for irrigation; continuous for
stock watering

Quantity: 0.63 cubic foot per second; 114 acre-feet per year for
irrigation, 1 acre-foot per year for stock watering

Priority Date: **June 30, 1889**

Point of Diversion: Ring well: 1,190 feet south of the center of Section 10,
T. 20 N., R. 16 E.W.M., close to the line separating the
NE $\frac{1}{4}$ SW $\frac{1}{4}$ from the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 10

Unnamed stream: 350 feet north and 500 feet east of the
center of Section 10, being within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of
Section 10, T. 20 N., R. 16 E.W.M.

Place of Use: That portion of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, T. 20 N.,
R. 16 E.W.M. lying northeast of the Teanaway River

Limitations Of Use: The ring well must tap and utilize water within the
unconsolidated alluvial sediments.

When stream flows are unable to fully satisfy all Teanaway
River water rights, this priority right shall be regulated
in favor of senior water right holders based upon the
present adjudicated rights.

When surplus water is available in excess of that needed to
satisfy all the existing rights to the Teanaway River, up
to an additional 0.63 cubic foot per second may be
diverted. This water is normally available only for a 30
day period during May and June (0.63 cfs diverted 24 hours
a day for 30 days would produce an additional 37.5 acre-
feet).

Comments: This water right reflects changes approved pursuant to
Water Right Change Application No. CS4-00383CTCL@1(A).

Teanaway Valley Farms, Inc.

COURT CLAIM NO. 00777
(A) 05114

Certificate Number: S4-83700-J

Subbasin: 03 Teanaway River

Source: Mason Creek via a Ring Well and the Teanaway River

Use: Irrigation of 2.75 acres

Period of Use: May 1 through September 15

Quantity: 0.055 cubic foot per second; 24.7 gallons per minute;
17.875 acre-feet per year

Priority Date: **June 30, 1889**

Point of Diversion: Ring Well-about 315 feet east and 450 feet north of the southwest corner of Section 13, T. 20 N., R. 16 E.W.M., being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 13.

Teanaway River-about 225 feet east and 300 feet north of the southwest corner of Section 13, T. 20 N., R. 16 E.W.M., being within the SW $\frac{1}{4}$ SW of said Section 13.

Place of Use: That portion of the NE¹/₄SE¹/₄ of Section 14, T. 20 N.,
R. 16 E.W.M., lying east of Mason Creek.

Limitations Of Use: When surplus water is available in the river in excess of that needed to satisfy all existing rights, an additional 0.055 cubic foot per second can be diverted. This water will normally only be available for a 30 day period in May and June.

Water from the Teanaway River shall not be diverted into the above authorized ring well and co-mingled therein. However, outside of the ring well the waters of the river and well may be co-mingled and used for irrigation.

Comments: This water right reflects changes approved pursuant to Water Right Change Application No. CS4-00777CTCLsb3@3.

Certificate Number: S4-83720-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow, mitigation, and water banking

Period of Use: June 1 to September 15

Quantity: 24.20 acre-feet per year to be distributed as follows:

June 1 to June 30 - 0.075 cubic-foot per second (cfs) and 4.47 acre-feet;
July 1 to July 31 - 0.141 cfs and 8.69 acre-feet;
August 1 to August 31 - 0.104 cfs and 6.40 acre-feet;
September 1 to September 15 - 0.156 cfs and 4.64 acre-feet

Priority Date: **June 30, 1890**

Point of Diversion: N/A

Place of Use: The Secondary Reach begins at approximately 650 feet south and 1200 feet west of the northeast corner of Section 34, T. 20 N., R. 16 E.W.M.

When any portion of this trust water is available and not being used for water banking or other authorized purposes, those quantities will be added to the instream target flows managed by the United States Bureau of Reclamation at Parker and Prosser and continue downstream to the Yakima River's confluence with Columbia River. If the water is used to offset consumptive use under WAC 173-539A, then the trust water right will NOT be added to the instream flows at Parker and Prosser.

Limitations Of Use: The permanent instream flow trust water right is the result of following the entire 14.32 acres place of use for Change Authorization no. CS4-YRB03CC2255(A). The real property to which the water rights are appurtenant shall remain fallow unless and until another valid water right is transferred to or a new valid water right is established on the historic place of use.

The Department of Ecology must manage this trust water right to effectively mitigate for impacts to total water supply available and reductions that adversely affect fish. Any portion of this trust water right that is assigned to the 2009 exchange contract No. 09XX101700 between the Department of Ecology and the United States Bureau of Reclamation will be managed in accordance with the contract and its associated review procedures.

Quantity: 3.38 acre-feet per year to be distributed as follows:

June 1 to June 30 - 0.010 cubic foot per second (cfs) and 0.62 acre-foot;
July 1 to July 31 - 0.020 cfs and 1.21 acre-feet;
August 1 to August 31 - 0.015 cfs and 0.90 acre foot;
September 1 to September 15 - 0.022 cfs and 0.65 acre-foot

Priority Date: **June 30, 1890**

Point of Diversion: N/A

Place of Use: The Secondary Reach begins at approximately 650 feet south and 1200 feet west of the northeast corner of Section 34, T. 20 N., R. 16 E.W.M.

When any portion of this trust water is available and not being used for water banking or other authorized purposes, those quantities will be added to the instream target flows managed by the United State Bureau of Reclamation at Parker and Prosser and continue downstream to the Yakima River's confluence with Columbia River. If the water is used to offset consumptive use under WAC 173-539A, then the trust water right will NOT be added to the instream flows at Parker and Prosser.

Limitations Of Use: The permanent instream flow trust water right is the result of fallowing the entire two-acre place of use for Change Authorization No. CS4-YRB032255(B). The real property to which the water rights are appurtenant shall remain fallow unless and until another valid water right is transferred to or a new valid water right is established on the historic place of use.

The Department of Ecology must manage this trust water right to effectively mitigate for impacts to total water supply available and flow reductions that adversely affect fish. Any portion of this trust water right that is assigned to the 2009 exchange contract No. 09XX101700 between the Department of Ecology and the United States

Bureau of Reclamation will be managed in accordance with the contract and its associated review procedures.

CLAIMANT NAME: **New Suncadia, LLC** COURT CLAIM NO. 02255
(A) 04493
(A) 04465

Certificate Number: S4-83767-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow for mitigation for potential net increase in consumptive water use by New Suncadia, LLC from the Yakima River or cumulative impacts from the project.

Period of Use: May 1 through September 15

Quantity: 43.81 acre-feet per year for instream flow; with up to 41.77 acre-feet per year for mitigation for potential net increase in consumptive water use and other cumulative impacts by the New Suncadia, LLC.

Secondary Reach - 43.81 acre-feet per year to be distributed as follows:

May - 0.14 cubic foot per second (cfs) and 8.88 acre-feet;
June - 0.16 cfs and 9.39 acre-feet;
July - 0.19 cfs and 11.50 acre-feet;
August - 0.17 cfs and 10.49 acre-feet;
September - 0.12 cfs and 3.55 acre-feet

Priority Date: **June 30, 1890**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 41.77 acre-feet per year of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC or other cumulative impacts of the project.

An ongoing monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective

of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the Monitoring Plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the New Suncadia, LLC development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the New Suncadia, LLC development will be less 0.68 acre-feet per year per ERU developed on appurtenant property (up to a total of 2.04 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be 41.77 acre-feet per year. Future landowners on property

appurtenant to the New Suncadia, LLC claim have two options for use of the 2.04 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Comments:

This water right reflects changes approved pursuant to Water Right Change Authorization Nos. CS4-YRB03CC02255@3 and CS4-02255 (D) CTCL.

CLAIMANT NAME: **New Suncadia, LLC** COURT CLAIM NO. 02255

Use: Instream flow for mitigation of consumptive use or other cumulative impacts by the New Suncadia, LLC Cle Elum Urban Growth Area development.

Period of Use: May 1 through September 15

Quantity: 21.90 acre-feet per year for instream flow; with up to 20.88 acre-feet per year for mitigation of for potential net increase in consumptive water use or cumulative impacts of the project.

Secondary Reach - 21.90 acre-feet per year to be distributed as follows:

May - 0.07 cubic foot per second (cfs) and 4.44 acre-feet;
June - 0.08 cfs and 4.69 acre-feet;
July - 0.09 cfs and 5.75 acre-feet;
August - 0.09 cfs and 5.25 acre-feet;
September - 0.06 cfs and 1.77 acre-feet

Priority Date: **June 30, 1890**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 20.88 acre-feet of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC and Cle Elum Urban Growth Area development or other cumulative impacts of the project.

An ongoing water monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New

Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the Monitoring Plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the Urban Growth Area development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the Urban Growth Area development will be less 0.34 acre-feet per year per ERU developed on appurtenant property (up to a total of 1.02 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be 20.88 acre-feet per year. Future landowners on property

appurtenant to the New Suncadia, LLC claim have two options for use of the 1.02 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Limitations Of Use: To ensure that no impairment or enlargement will occur as a result of this change, in the event that unavailability of water downstream of the proposed points of diversion in the North Fork Teanaway watershed results in calls for curtailment against junior water users in the North Fork, Teanaway Tracts Recreational Association under Court Claim No. 02486 shall subjugate its priority date to that of the most junior user as of the date of this decision.

Existing surface water rights or applications as of December 6, 2006, on the North Fork Teanaway River or tributary thereto, the points of diversion of which are located downstream of the Teanaway Tract's new points of diversion and upstream of the confluence of the North Fork and Middle Fork Teanaway Rivers.

Comments: This water right reflects changes approved pursuant to Water Right Change Application No. CS4-02486sb3a@2.

Subbasin:

03 Teanaway River

Source:

Middle Fork Teanaway River

Use:

Irrigation of 4 acres and stock water

Period of Use:

May 1 through September 15

Quantity:

0.08 cubic foot per second; 21.6 acre-feet per year

Priority Date:

June 30, 1890

Point of Diversion:

1200 feet north and 800 feet west from the southeast corner of Section 26, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, T. 21 N., R. 15 E.W.M.

Place of Use:

Lot 6 of the Plat of Logan's Acres being within that portion of the N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 36, T. 21 N., R. 15 E.W.M. lying northeast of the Middle Fork Teanaway River and southwest of the Middle Fork Teanaway Road.

CLAIMANT NAME:

**Robert M. Cernick
& Debbie Lee Cernick**

COURT CLAIM NO. 02148

Certificate Number: S4-85270-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Irrigation of 16 acres and stock watering

Period of Use: May 1 through September 15

Quantity: 0.224 cfs; 43.2 acre-feet per year

Priority Date: **June 30, 1891**

Point of Diversion: 50 feet north and 50 feet west of the southeast corner of Section 33, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. Teanaway River Mile 0.6

Place of Use: That portion of the following described parcel lying east of a drain that runs north to south through the property: That portion of the SE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. lying southeasterly of the SR 970 and north of Lambert Road bounded by a line described as follows: Beginning at the southeast corner of Section 33; thence N 89°16'50" W 947.87 feet along the south line of said section; thence N 0°43'10" E 30 feet to the north line of Lambert Road and the true point of beginning; thence N 0°16'43" E 934.51 feet; thence N 51°06'41" W, 420.94 feet to the southeast right-of-way line of SR 970; thence S 57°39'21" W 1151.65 feet along said right-of-way line; thence N 32°20'39" W 75 feet along said right-of-way line; thence S 57°39'21" W, 352.70 feet along said right-of-way line; thence along a curve of radius 3,515.89 feet, to the right, an arc length of 37.52 feet along said right-of-way line to the west line of said SE $\frac{1}{4}$; thence S 0°12'20" W, 416.46 feet along said west line to the north right-of-way line of Lambert Road; thence S 89°16'50" E 1667.61 feet along said right of way line to the true point of beginning.

Comments: This water right reflects changes approved pursuant to Water Right Change Application No. CS4-02148sb3.

CLAIMANT NAME: **Daryle T. Starkovich Estate** COURT CLAIM NO. 01201

Certificate Number: S4-85119-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Irrigation of 32.81 acres and stock water

Period of Use: May 1 through September 15

Quantity: 0.459 cubic foot per second, 88.587 acre-feet per year for irrigation, and 1 acre-foot per year for stock watering

Priority Date: **June 30, 1891**

Point of Diversion: 50 feet north and 50 feet west of the southeast corner of Section 33, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. Teanaway River Mile 0.6

Place of Use: That portion of the SE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. lying northwesterly of State Highway 970 described as follows: Beginning at the northeast corner of said southeast quarter; thence west 1520 feet, more or less; thence S 4°02'47" E 1199.47 feet; thence N 57°15'24" E 65.15 feet; thence S 32°44'36" E 75 feet, to the northwesterly right-of-way of said highway; thence northeasterly along said right-of-way to the east line of said southeast quarter; thence north to the east line of said southeast quarter; thence north to the point of beginning; but EXCLUDING 0.19 acre (8200 square feet) within that portion of the SE $\frac{1}{4}$ of Section 33, T. 20 N., R. 16 E.W.M. lying northwesterly of State Highway 970, approximately described as follows: from the northeast corner of said southeast quarter; thence west 435 feet, more or less; thence south 125 feet to the point of beginning; thence south 115 feet; thence west 30 feet; thence south 43 feet; thence west 45 feet; thence north 158 feet; thence east 75 feet to the point of beginning. AND that portion of said southeast quarter lying southeasterly of said highway described as follows: Commencing at the northeast corner of said southeast quarter; thence south 565 feet, more or less, to a point on the southeasterly right-of-way of said highway; thence southwesterly 582 feet, more or less, along said right-of-way to the point of beginning; thence S 8°8'21" E 720.54 feet; thence S 79°0'44" W 586.65 feet; thence N 51°6'4" W 420.94 feet to the said right-of-way; thence northeasterly along said right-of-way to the point of beginning. AND Kittitas County Parcel No. 815235 (0.45 acre) in the far northwest corner of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 34, T. 20 N., R. 16 E.W.M., which abuts on its west side with Kittitas County Parcel No. 335235.

Source:

Middle Fork Teanaway River

Use:

Irrigation of 10 acres and stock water

Period of Use:

May 1 through September 15 for irrigation; continuous for stock water

Quantity:

0.20 cubic foot per second; 64 acre-feet per year for irrigation, 0.20 cubic foot per second; 2 acre-feet per year for stock watering

Priority Date:

June 30, 1897

Point of Diversion:

10 feet north and 1000 feet east from the southwest corner of Section 25, being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, T. 21 N., R. 15 E.W.M.

Place of Use:

That portion of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 36 lying south and west of the county road and north and east of the Middle Fork Teanaway River, in T. 21 N., R. 15 E.W.M.

Limitations Of Use:

When surplus water is available in excess of that needed to satisfy all existing rights, an additional 0.20 cubic feet per second may be diverted. This water will normally only be available for a 30 day period in May and June.

CLAIMANT NAME: **New Suncadia, LLC**

COURT CLAIM NO. 02255

(A) 04493

(A) 04465

Certificate Number: S4-83766-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow and mitigation for potential net increase in consumptive water use by New Suncadia, LLC from the Yakima River or cumulative impacts of the project.

Period of Use: May 1 through September 15

Quantity: Secondary Reach - 5.14 acre-feet per year to be distributed as follows:

May - 0.02 cubic foot per second (cfs) and 1.04 acre-feet;
June - 0.02 cfs and 1.10 acre-feet;
July - 0.02 cfs and 1.35 acre-feet;
August - 0.02 cfs and 1.23 acre-feet;
September - 0.01 cfs and 0.42 acre-foot

Priority Date: **June 30, 1898**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 5.14 acre-feet per year of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC or other cumulative impacts of the project.

An ongoing monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the approved monitoring plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the New Suncadia, LLC development does not include assumed future water use on property appurtenant to the claim referenced in this application. However, no future use is anticipated on property appurtenant to this claim as discussed in the General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be the same as the table noted in the quantity section above.

This authorization shall in no way excuse the permittee from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Comments:

This water right reflects changes approved pursuant to Water Right Change Authorization Nos. CS4-YRB03CC02255@5 and CS4-02255 (F) CTCL.

CLAIMANT NAME: **New Suncadia, LLC**

COURT CLAIM NO. 02255

(A) 04493

(A) 04465

Certificate Number: S4-85217-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow and mitigation for consumptive water use by New Suncadia, LLC Urban Growth Area Development from the Yakima River or cumulative impacts of the project.

Period of Use: May 1 through September 15

Quantity: Secondary Reach - 2.58 acre-feet per year to be distributed as follows:

May - 0.01 cubic foot per second (cfs) and 0.52 acre-foot;
June - 0.01 cfs and 0.55 acre-foot;
July - 0.01 cfs and 0.68 acre-foot;
August - 0.01 cfs and 0.62 acre-foot;
September - 0.01 cfs and 0.21 acre-foot

Priority Date: **June 30, 1898**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 2.58 acre-feet per year of water for mitigation associated with this claim will only be available when water for this right is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC Urban Growth Area Development or other cumulative impacts of the project.

An ongoing water monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the approved monitoring plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the Urban Growth Area development does not include assumed future water use on property appurtenant to the claim referenced in this application. However, no future water use is anticipated on property appurtenant to this claim as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be the same as the table noted in the quantity section above.

This authorization shall in no way excuse the permittee from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Comments:

This water right reflects changes approved pursuant to Water Right Change Authorization Nos. CS4-YRB03CC02255@5 and CS4-02255 (F) CTCL.

CLAIMANT NAME: **New Suncadia, LLC** COURT CLAIM NO. 02255
(A) 04493
(A) 04465

Certificate Number: S4-85216-J

Subbasin: 03 Teanaway River

Source: Teanaway River

Use: Instream flow for mitigation for potential net increase in consumptive water use by New Suncadia, LLC Urban Growth Area Development from the Yakima River or other cumulative impacts of the project.

Period of Use: May 1 through September 15

Quantity: 8.26 acre-feet per year for instream flows; up to 7.92 acre-feet per year for mitigation for potential net increase in consumptive water use by the New Suncadia, LLC and Cle Elum Urban Growth Area Development or other cumulative impacts of the project.

Secondary Reach - 8.26 acre-feet per year to be distributed as follows:

May - 0.03 cubic foot per second (cfs) and 1.67 acre-feet;
June - 0.03 cfs and 1.77 acre-feet;
July - 0.04 cfs and 2.17 acre-feet;
August - 0.03 cfs and 1.98 acre-feet;
September - 0.02 cfs and 0.67 acre-foot

Priority Date: **June 30, 1898**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 7.92 acre-feet per year of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC Urban Growth Area development or other cumulative impacts of the project.

An ongoing monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been

acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the monitoring plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the Urban Growth Area development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the Urban Growth Area development will be less 0.34 acre-feet per year per ERU developed on appurtenant property (up to a total of 0.34 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust

water available for mitigation in the secondary reach will be 7.92 acre-feet per year. Future landowners on property appurtenant to the New Suncadia, LLC claim have two options for use of the 0.34 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the applicant from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

Comments:

Period of Use: May 1 through September 15

Quantity: 16.49 acre-feet per year for instream flow; up to 15.81 acre-feet per year for mitigation of consumptive use or cumulative impacts by the project.

Secondary Reach - 16.49 acre-feet per year to be distributed as follows:

May - 0.05 cubic foot per second (cfs) and 3.34 acre-feet;
June - 0.06 cfs and 3.53 acre-feet;
July - 0.07 cfs and 4.33 acre-feet;
August - 0.06 cfs and 3.95 acre-feet;
September - 0.04 cfs and 1.34 acre-feet

Priority Date: **June 30, 1898**

Point of Diversion: N/A

Place of Use: Within the Teanaway River downstream from the existing points of diversion (located 600 feet north and 200 feet east from the center of Section 25 lying within Section 25, and located at 1200 feet south and 600 feet west of the east quarter corner of Section 26, lying within Section 26, ALL within T. 20 N., R. 16 E.W.M.) and Yakima River downstream of confluence with Teanaway River.

Limitations Of Use: The 15.81 acre-feet per year of water for mitigation associated with this claim will only be available when water is available at the old point of diversion. This annual quantity of trust water may be used to mitigate increased consumptive use associated with the New Suncadia, LLC or other cumulative impacts of the project.

An ongoing monitoring program shall be established to ensure that the amount of water used at the New Suncadia, LLC and the City of Cle Elum is consistent with the water available under the water right claims that have been acquired by New Suncadia, LLC and that the collective operations described in the water supply plan for the New Suncadia, LLC and Cle Elum Urban Growth Area are protective

of the water rights of other water users on the mainstem of the Yakima River and its tributary streams.

New Suncadia, LLC shall submit a monitoring plan describing the hydrologic monitoring program, subject to review and approval by Ecology.

A new rating curve shall be developed by New Suncadia, LLC to replace the existing rating curve for the existing United States Bureau of Reclamation stream gauging station on the lower Teanaway River to acquire more accurate water surface stage (elevation) data to be correlated to flow (in cubic feet per second).

The stream gage shall be an approved measuring device, and be constructed and maintained as described in the monitoring plan.

Hydrologic conditions on the Teanaway River shall be recorded continuously and reported on at least a daily average flow basis.

The hydrologic monitoring by New Suncadia, LLC will be incorporated into United States Bureau of Reclamation's monitoring network, either directly or through Ecology.

The data collected with the Teanaway River stream gage shall be incorporated into a monitoring program that encompasses measurement and reporting for Big Creek, First Creek, and Swauk Creek and for the New Suncadia, LLC/Cle Elum diversions on the Yakima and Cle Elum Rivers.

New Suncadia, LLC shall submit a water management plan for Ecology's approval that describes how water will be managed when water under this authorization is not available at the existing point of diversion. The plan must be approved by Ecology before trust water will be available to mitigate consumptive use impacts associated with the project.

New Suncadia, LLC shall enter into a Trust Water Right Agreement with Ecology to convey its rights under this authorization to the State and to identify reasonable conditions.

The annual amount of trust water (Qa) available to mitigate for the mainstem claim transfers associated with the New Suncadia, LLC development does not include assumed future water use on property appurtenant to the claim referenced in this application. The annual amount of trust water available for mitigation of the New Suncadia, LLC development will be less 0.68 acre-feet per year per ERU developed on appurtenant property (up to a total of 0.68 acre-feet per year) as discussed in General Report - Teanaway River Basin. Thus, the annual amount of trust water available for mitigation in the secondary reach will be 15.81 acre-feet per year. Future landowners on property

appurtenant to the New Suncadia, LLC claim have two options for use of the 0.68 acre-feet per year described above:

- 1) leave water in trust as mitigation for exempt domestic use in accordance with the Trust Water Agreement between New Suncadia, LLC and Ecology; or
- 2) apply for a water right change from a trust water right to the domestic and irrigation use that would occur on the appurtenant property.

This authorization shall in no way excuse the permittee from compliance with the applicable federal, state, or local statutes, ordinances, or regulations including those administered by other programs of the Department of Ecology.

CLAIMANT NAME:

**Tom Conner
& Carol Conner**

COURT CLAIM NO. 00746
(A) 06336

Certificate Number: S4-83764-J

Subbasin: 03 Teanaway River

Source: Unnamed pond hydraulically connected to the Teanaway River

Use: Irrigation of 40 acres and stock water

Period of Use: May 1 through September 15

Quantity: 0.80 cubic foot per second; 160 acre-feet per year for
irrigation, 2 acre-feet per year for stock water

Priority Date: **June 30, 1899**

Point of Diversion: 470 feet from the Teanaway River in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of
Section 10, T. 20 N., R. 16 E.W.M., being approximately
7600 feet downstream from the historical Ballard Ditch
diversion located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, T. 20 N.,
R. 16 E.W.M.

Place of Use: That portion of the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 9, T. 20 N.,
R. 16 E.W.M. lying south of the Teanaway Road

Limitations Of Use: When sufficient water is available in excess of that needed
to satisfy all existing rights, an additional .80 cubic
foot per second can be diverted from the river. This water
will normally only be available for a 30 day period in May
and June. When stream flows are unable to fully satisfy
all Teanaway River water rights, this priority right shall
be regulated in favor of senior water right holders based
upon the present adjudicated rights.

Comments: This water right reflects changes approved pursuant to
Water Right Change Authorization No. CS4-00746CTCL@1.

Quantity: 0.226 cubic foot per second; 73.45 acre-feet per year for irrigation

Priority Date: **June 30, 1910**

Point of Diversion: 550 feet south and 780 feet east of the northwest quarter corner of Section 14, being within the NW¹/₄NW¹/₄ of Section 14, T. 20 N., R. 16 E.W.M.; but to be relocated as necessary in the future within a quarter mile reach of Teanaway River's left/northerly bank within the NW¹/₄NW¹/₄ of Section 14, T. 20 N., R. 16 E.W.M., in order to respond to river channel changes over time caused by flooding or other erosion.

940 feet south and 1900 feet east of the northwest quarter corner of Section 14, being within the NE¹/₄NW¹/₄ of Section 14, T. 20 N., R. 16 E.W.M.

Place of Use: That portion of E¹/₂NW¹/₄ of Section 14, T. 20 N., R. 16 E.W.M. lying south of the Teanaway Road and northerly of a line described approximately as follows: Beginning at the northwest corner of the said E¹/₂NW¹/₄; thence S 37° E 1400 feet more or less; thence S 14° E 875 feet, more or less; thence east 325 feet more or less to a terminus 30 feet east of the north/south center line of the said section.

Limitations Of Use: When surplus water is available in excess of that needed to satisfy all existing rights, an additional 0.226 cubic foot per second may be diverted. This water will normally only be available for a 30 day period in May and June.

Comments: This water right reflects changes approved pursuant to Water Right Change Application No. CS4-00914sb3e@1.

& Rebecca Nunn**

COURT CLAIM NO. 00344

Certificate Number: S4-83780-J

Subbasin: 03 Teanaway River

Source: An unnamed creek

Use: Group domestic supply for three recreational residences

Period of Use: Continuous

Quantity: 0.005 cubic foot per second; 1.5 acre-feet per year

Priority Date: **June 28, 1973**

Point of Diversion: 650 feet south and 200 feet west from the east quarter corner of Section 32, being within the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, T. 22 N., R. 16 E.W.M.

Place of Use: Lots 1, 2 and 3 of Teanaway Recreational Residence Tract lying within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$, and the SE $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32, T. 22 N., R. 16 E.W.M.

Limitations Of Use: Diversion intake shall be tightly screened at all times with wire having a mesh opening not greater than .125 (1/8) inch.

CLAIMANT NAME: **Beatrice Diane Jasper**

COURT CLAIM NO. 00591

Certificate Number: S4-83781-J

Subbasin: 03 Teanaway River

Source: An unnamed spring and/or an unnamed stream

Use: Stock water

Period of Use: Continuously

Quantity: 0.01 cubic foot per second; 0.25 acre-foot per year

Priority Date: **June 28, 1973**

Point of Diversion: 200 feet north and 800 feet west from the southeast corner of Section 18, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18, T. 20 N., R. 17 E.W.M.

Place of Use: The SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18, T. 20 N., R. 17 E.W.M.

Limitations Of Use: The entire opening of the diversion intake shall be tightly screened at all times with wire mesh having openings with dimensions not greater than 0.125 (1/8) inch. Water approach velocity to the screen shall be less than 1 foot per second and approaching 0.5 foot per second, as measures one (1) foot in front of the screen.
